George Bakas

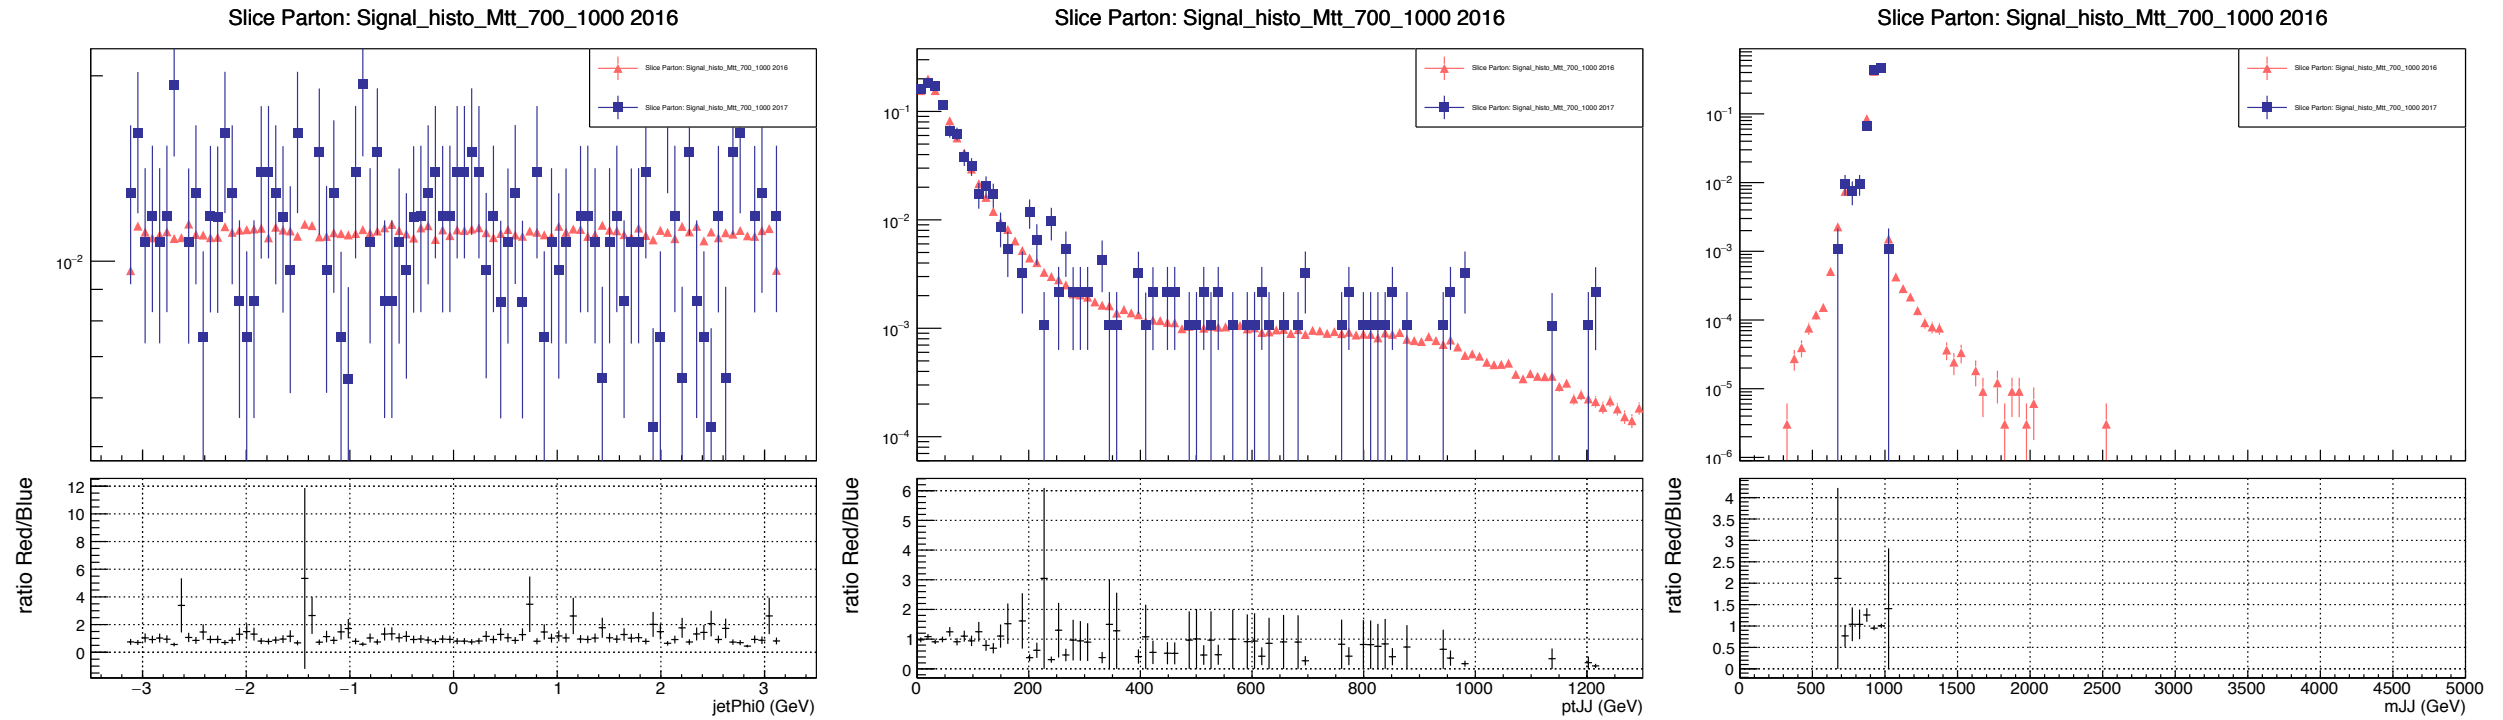

Status Report

- 2018 Analysis:
 - Global Tags were changed → New production for all files (both data and MC)
 - This also means new training!
 - New Files → New Training → Update New Score
- Production for buggy mtt files
 - Released 93% of 2018 Mtt [1000-Inf] GeV
 - Released a few events (almost 100k) for 2017 Mtt [700-1000] GeV
 - The discrepancies seem to be fixed
- Presentation of our results for ttX group next week
- Trying to setup the servers
- 23rd High Energy Physics International Conference in Quantum Chromodynamics, 27-30 October:
 - (<https://www.lupm.in2p3.fr/users/qcd/qcd20/Welcome.html>)
 - Maybe we can present TOP-18-013?

Comparison of 2016 and 2017 Slice 700-1000 GeV

Comparison of 2016 and 2018 Slice 1000-Inf GeV
